Pinch-Hitting (if Jays up by 5 or more, ignore):

Right Field: • If Spangenberg faces an lhp, pinch-hit with Blash who stays in rf

Third Base: • If Barney faces an rhp, pinch-hit with Chapman who stays at 3rd.

Maldonado: • Top 8th on, if the Jays are losing and Maldonado faces an rhp, pinch-hit with Hernandez

If Spangenberg or Blash bat in the same inning, put Hernandez in rf and Sanchez catches in the rf spot. Otherwise just put Sanchez at catcher in the 9 spot.

• Top 8th on, if the Jays are losing and Maldonado faces and lhp, ph with Blash or Chapman if available. Leave them in the line-up and put Sanchez in Barney's or Spangenberg's spot. Blash plays rh and Chapman plays 3rd.

NOTE: If Hernandez comes in, he plays cf and Gomez moves to rf.

Stealing:2nd: Adjusted 7 (75% chance)3rd: Adjusted 8 (75% chance)2nd and 3rd: When both apply above2nd and Home: Steal 2nd on a 7.

If you throw to 2nd, send runner home if he has an 8 or more.

Hit and Run:

If the pitcher has fewer than 7 k's per 9 innings, Gregorius will hit and run v rhp

Bunting:

Runner on 1st or 1st+2nd with 0-1 out, Maldonado bunts if the infield/corners are back.

BASE RUNNING: Send all base runners if adj base running is equal to or greater than the number

	No Out	1 Out	2 Out
Runner to 2nd	9 (70%)	9 (70%)	8 (65%)
Runner to 3rd	11 (80%)	7 (60%)	11 (80%)
Runner to home	8 (65%)	8 (65%)	8 (65%)

Note: the number of outs depend on current situation at the moment:

e.g.: Runner on 3rd with 1 out, then a fly ball is hit - that becomes the 2nd out - so runner goes on 8

Starting Rotation: Sponsored by St. Louis Bar and Grill www.stlouiswings.com

1. Cobb 2. Nova 3. Chacin 4. Biagini 5. Lopez

Pull starters when fatigued OR at start of inning the starter has passed fatigue batter number but is not yet fatigued

THE LABATT's BLUE PEN!

Read down list until you get to a reliever that applies. If you get to the bottom work your way back up.

Pull Relievers When: 1) Specified in use, 2) at start of inning a new pitcher is called for, 3) batter limit, 4) fatigue

Batter Limit: Closer 6, Short 8; last game of series all can pitch until fatigue

Casilla: Closer (?)	9th inning save sit, bring him in ONLY if 2 of next 3 batters are rhb Pull him if he faces a lhb or shb with a runner in scoring position In that case, if Duensing is not available, bring in Pazos v lhp or Wilson v shb If Pazos then faces a righty, go to Greene then Tepera.
Duensing: Closer (?)	8th inning, Jays up by 3 or fewer, leave in for 9th unless he faces a rhb with a runner on base
Greene: Middle	6th on, score 5 runs either way. Use if 2 of next 3 batters are rhb. If he was used in the last game, skip to Tepera
Alexander: Middle	6th on, score 5 runs either way. Use if 2 of next 3 batters are rhb or shb If he was used in the last game, skip to Pazos
Tepera: Middle	4th on, Use if 2 of next 3 batters are rhb or shb
Pazos: Middle	4th on, Use if 2 of next 3 batters are lhb
Wilson: Long	1st on

NOTE: With Greene (R), Alexander (L), Tepera (R), Pazos (L) I want to try and rotate left and right
At the start of each inning, check and see if the set of batters coming up might call for a different pitcher.
based on lhb/rhb splits for these 4 pitchers.

Defensive Instructions: VISIT THE ROYAL ONTARIO MUSEUM OF ART!

Throwing: Generally throw at all runners on adjusted 8 or less however:

If there is one runner advancing, try to get him.

Always throw if the tying or winning run is trying to score in the 9th

If there is a sure out, take it unless the other runner is trying to advance on a 5 or less.

If there are two runners, throw for the one with the lower rating

unless the tying or winning run trying to score in 9th.

Infield In: Runner on 3rd, less than 2 out and no force at 2nd base, any inning.

8th on, if tying or winning run is on 3rd and less than 2 out

Holding Runners: Always

Intentional Walk: Never

Pitching around Batters: Never
