|  |
|--|
| All SP will remain in game for at least 5 IP.                        |
| Remove SP when TIRED unless 8th inning and Dodgers up by > 5.        |
| In that case, leave SP in until he surrenders a run then remove.     |
| Remove all SP in 9th for Closer in save situation EXCEPT for Kershaw |
| Kershaw stays in game until TIRED regardless of situation.           |

(Matz replaces Martinez on Roster and #5 starter after All-Star Break)

**Relief Usage - Start at Top except for Last Guy (2 IP Max except for Mop Up)**

Remove all relievers when they become fatigued, PH, OR for the Closer rules.

Check for new pitcher at the start of new innings (Use Setup if Closer unavailable)

**Closer:** 8th on when it is a save situation or when tied.

**Set Up:** 7th on and game is within 3 runs either way.

**Relief:** 6th on when other roles don't apply

**Mop Up:** Any inning losing by 5+, or as the last guy in extra innings

**Extra Innings:** If game goes extra innings then pitch from top to bottom of list

**Offensive Strategy:** order of usage: steal - hit and run - bunt

**Pinch Run :** Never

**Stealing**

2nd Base: If adjusted steal is 7 or greater then steal. Only steal if game is with 3 runs either way. Do not steal if runners on 1st and 3rd and 2 out, unless the runners stealing 2nd is an 10 or greater.

3rd base: If adjusted steal is 9 or greater and 1 out.

**Hit and Run**

Not this year, thank you.

**Sacrifice**

Pitchers will sac bunt if there is a runner on 1st and less than 2 out. (Preference to try to steal if possible)

Pitchers rated 5-1 or 5-2 will bunt with a runner on any base and less than 2 out.

7th on: If Dodgers are tied or down 1 run and there is a runner on 1st, then all 5 or 4 bunters will sac bunt with 0 outs

**Base running**

Send all base runners if their adjusted BR is equal to or greater than the number listed for the situation.

|                        | <b>No Outs</b> | <b>One Out</b> | <b>2 outs</b> |
|------------------------|----------------|----------------|---------------|
| <b>1st to 3rd</b>      | 8              | 7              | 8             |
| <b>1st to home</b>     | 7              | 6              | 5             |
| <b>2nd to 3rd</b>      | 8              | 7              | 8             |
| <b>2nd to home</b>     | 7              | 6              | 4             |
| <b>3rd to home (g)</b> | 8              | 7              | na            |
| <b>3rd to home (f)</b> | na             | 7              | 4             |

**Defensive Strategy**

**Throwing**

1. Cut down any runner 7 or less.
2. Cut down any runner 10 or less at the plate, if it's the tying run 7th on.
3. Cut down go ahead run at the plate 8th on no matter what the rating.
4. Cut down all base stealers of 9 or less

**Infield In**

7th on, if tying or winning run is on 3rd and less than 2 out.

Corners in on all 5 bunters or pitchers with less then 2 out and runners on 1st, 2nd, or 1st and 2nd

**Holding Runners On**

Hold all runners

**Intentional Walks:** None

**Injury Replacements:** You may move people around
