STARTING PITCHER USAGE NOTES

- 1) Always remove Starters when fatigued unless ahead by 5+ runs or pitching a 2+ run shutout, then remove if tying run on base, at bat, or on deck.
- 2) Always remove Starter if 5 earned runs allowed or 7 total runs allowed.
- 3) If starter is pulled early, and Zack Littell is not pitching in the series, he will be the first option to get to the middle relievers. Merryweather is the Long relief option if Littell is not available.

BULLPEN

- 1) For Relief Pitchers, see the 'Relief Ptcher Instructions Chart' and the 'Game Situation Chart' below. Utilize the Relief Pitcher Instructions Chart to determine the general use requirements and then reference the Game Situation Chart to determine the specific order of precedence (Work down the list representing the appropriate inning and situation).
- 2) Always check at the start of an inning to see if the game situation has changed or if the next reliever per the preference list is due to come into the game.
- 3) Do not hesitate to look for match-ups to gain platoon advantage utilizing middle relievers and set-up guys to get to the 9th.
